Professional Expertise

Randy Hintze is a Building Engineer with Cushman & Wakefield/Commerce, overseeing all physical operations of 310 South Main Street in Salt Lake City. He provides preventive maintenance on building equipment and repairs to carpentry, mechanics, plumbing, minor electrical, finish work, painting, custodial, and HVAC equipment.

Randy spent over twenty years with JCPenny Company as their Building Maintenance Supervisor, where he supervised and coordinated several new construction and remodel projects, including a 4.5 million dollar remodel of over 135,000 sq. ft. on nine floors within a nine month period. He specializes in all aspects of electrical, audio/video, and data cabling.

He also continues to support North Salt Lake's Southfork Hardware, managing product and assisting customers with various home improvement projects.
